

## Data Analytics Concentration (9258)

### Associate of Applied Business Degree

This program prepares students for employment in the field of data analytics. Students will obtain skills, and utilize tools that are necessary for the storage, processing, analysis, visualization, security, and application of data. Data analysts are responsible for extracting, categorizing, and analyzing data, to identify patterns, behaviors, and trends, as well as utilizing different reporting, modeling, and analytical techniques. In addition to employment opportunities, students have the option to continue their education beyond the two-year associate degree program by enrolling in bachelor's degree programs at local universities.

**NOTE:** Students planning to transfer to a four-year college are encouraged to take ENGL 1120 English Composition II in addition to the following requirements.
